MULTI AWARD
WINNERS

Your pool heating Partner

Ultra-high performance in a compact, quiet and eco-friendly design

HEAT YOUR POOL FASTER WITH LESS ENERGY

MasterTemp Gas Heaters provide a efficient way to quickly heat your pool.

If you only need to heat your pool occasionally, then a Pentair MasterTemp Gas Heater can save you money.

Quick and Efficient

The MasterTemp gas heaters heat your pool to your desired temperature in a few hours. Making it ideal for social drop ins, School Holidays and weekends.

High efficiency rating makes these heaters extremely economical to operate. If your pool heater is more than 5 years old, chances are a MasterTemp could quickly pay for itself in utility bill savings.

Lowest Flow Rates

With a low flow rate the MasterTemp allows the installation of a variable speed pump allowing the Solar Heating and Gas Heater to work in perfect sync.

Low NOx emissions

Eco-friendly, MasterTemp is certified for low NOx emissions and outperforms industry standards.

Super-Quiet

MasterTemp is engineered for super-quiet operation and won't intrude on your poolside leisure time.

Rotating Display

The easy-to-view, rotating digital display places controls front and center, no matter how MasterTemp is positioned on your equipment pad.

Best-in-class energy efficiency

Rotatable lid, makes it easy to install or retrofit in even the tightest space.

Models from 200Mj to 400Mj

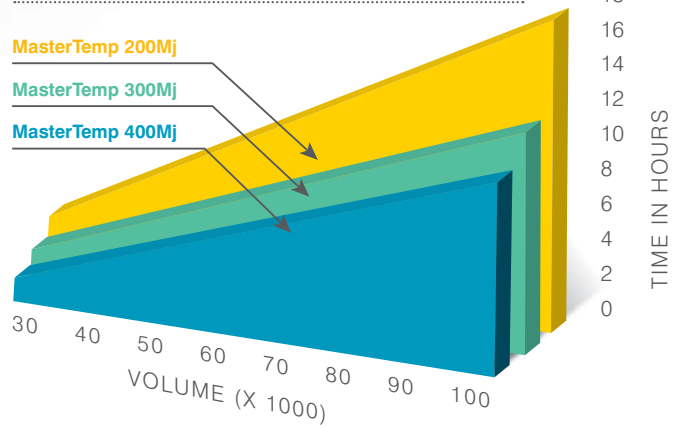

Rustproof, tough composite exterior for long life

Available in natural gas and propane models.

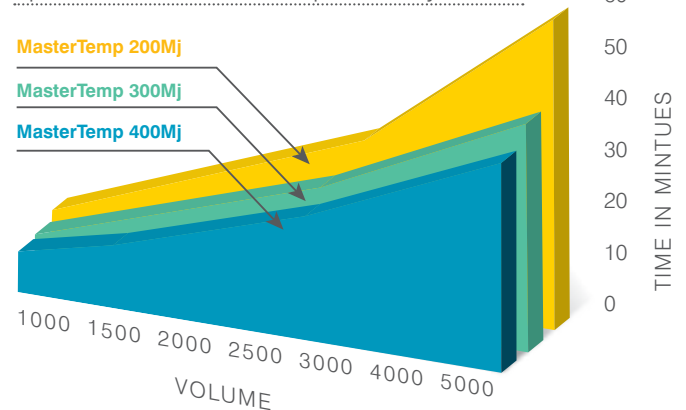

Rotating digital display means more installation options and easier access to view operating information

- ✓ Very compact design for such a high performance heater, allows for smaller overall equipment pads that won't intrude on your poolscape.
- ✓ A fully pre-mixed system with a highly efficient air and gas mixture lets MasterTemp heat up fast. No long waits before enjoying your pool or spa.
- ✓ Compare energy efficiency ratings and you'll find MasterTemp at the top of the list. Comfort and economy can go together.
- ✓ With a hot surface ignition (no pilot light) and pushbutton, digital controls, MasterTemp is as easy to operate as your home heating system. Plus, user-friendly indicator lights make system operation and monitoring a snap.
- ✓ A tough, rustproof composite exterior handles the heat and weathers the elements.
- ✓ Approved for installation on combustible surfaces.
- ✓ Safe operation is assured through a series of features, including: a water pressure switch that senses the pump is running to prevent overheating, high limit switches assure the heater turns off if water temperature exceeds factory-set limits, manual gas shut-off when service is required, stack flue sensor also guards against overheating.

Pool – Time to increase temperature by 10°C

Spa – Time to increase temperature by 10°C
